# **Material Safety Data Sheet**

**Radnor Carbon Arc Electrodes** 

### Section 1. Chemical product and company identification

Common names	: Carbon Arc Electrodes; Gouging Electrodes
Trade name	: Graphite, Copper-coated Electrodes
Supplier	: Radnor Products, PO Box 6675, Radnor, PA 19087

In case of emergency : (866) 734-3438

### Section 2. Hazards identification

Physical state		Solid (Rod)
Emergency overview	4	WARNING
		CANCER HAZARD
		CONTAINS MATERIAL WHICH CAN CAUSE CANCER.
		CONTAINS MATERIAL WHICH CAUSES DAMAGE TO THE FOLLOWING ORGANS: KIDNEYS, LUNGS, LIVER, CARDIOVASCULAR SYSTEM, RESPIRATORY TRACT,
		SKIN, EYE, LENS OR CORNEA.
		Avoid breathing dusts. This product contains a component which, in powdered form, may cause respiratory tract and eye irritation; however, since this component is bounded to the core metal, the risk of inhalation of is negligible, as is any possible cancer hazard associated with this material.
Routes of entry	÷	Dermal contact; Eye contact; Inhalation; Ingestion.
Potential acute health effects	S	
Eyes	4	Dust particules or fumes may cause eye irritation.
Skin	1	No known significant effects or critical hazards.
Inhalation	1	May cause respiratory tract irritation.
Ingestion	1	No known significant effects or critical hazards.
Potential chronic health effects	:	Carcinogenic effects: Classified 1 (Known to be human carcinogens.) by NTP, + (Proven.) by NIOSH [Silica crystalline, quartz]. Classified A2 (Suspected for humans.) by ACGIH, 2A (Probable for human.) by IARC [Silica crystalline, quartz]. Mutagenic effects: Not available Teratogenic effects: Not available
Medical conditions aggravated by over- exposure	:	Repeated or prolonged exposure to the substance can produce target organ damage. Prolonged or repeated contact may cause eye irritation.

See toxicological information (section 11)

# Section 3. Composition, Information on Ingredients

Powered by

This material is classified hazardous under OSHA regulations in the United States, the WHMIS Controlled Product Regulation in Canada and the NOM-018-STPS-2000 in Mexico.

See Sections 8, 11 and 14 for details.

### Section 4. First aid measures

Eye contact	: Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur.
Skin contact	: Wash with soap and water. Get medical attention if symptoms occur.
Inhalation	<ul> <li>If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.</li> </ul>
Ingestion	: Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.
Notes to physician	: No specific antidote. Medical staff must contact Poison Control Center.

### Section 5. Fire fighting measures

Flammability of the product	1	Non-flammable
Fire-fighting media and instructions	:	Use an extinguishing agent suitable for the surrounding fire.
		Welding arcs and sparks can ignite combustibles. Refer to ANSI Z49.1 "SAFETY IN WELDING AND CUTTING" published by the American Welding Society for fire prevention and protection information during welding.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions	1	Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment.
Environmental precautions	;	Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers.
Methods for cleaning up	:	If emergency personnel are unavailable, vacuum or carefully scoop up spilled material and place in an appropriate container for disposal by incineration. Avoid creating dusty conditions and prevent wind dispersal.

### Section 7. Handling and storage

Handling	: Wash thoroughly after handling.
Storage	: Keep container tightly closed. Keep container in a cool, well-ventilated area.

### Section 8. Exposure controls, personal protection

Engineering controls	: Use process enclosures, local exhaust ventilation or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fumes or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit. If dust is generated and ventilation is inadequate, use NIOSH certified respirator that will protect against dust/mist.	
Personal protection		
Eyes	: Wear helmet or use a face shield with the appropriate filter lens. Provide protective screens and flash goggles, if necessary to shield others. Consult ANSI Z49.1	F

Carbon Arc Electrodes	
Respiratory Hands	<ul> <li>A NIOSH approved respirator should be worn when airborne dust and fume concentrations exceed the applicable limits for Tungsten, Lanthane or other welding materials. A NIOSH approved fume respirator when welding in confines spaces. All appropriate requirements set forth in 29 CFR 1910.134 should be met. Under extreme exposure conditions when airborne concentrations may be above the protection factor of an airpurifying respirator, use a positive-pressure, air-supplied respirator. Appropriate standards for use of respiratory protection (such as 29 CFR 1910.134 and Z49.1) should be consulted.</li> <li>Leather gloves</li> </ul>
Skin/Body	: Head, hand and body protection to prevent injury from arc radiation, sparks and electrical shock must be worn. Consult ASNI STD Z49.1
Personal protection in case of a large spill Product name United States	: Safety glasses, goggles or face shield. Impervious gloves. Full suit. Boots. Wear NIOSH- approved self-contained breathing apparatus or equivalent and full protective gear. Exposure limits

### Section 9. Physical and chemical properties

Physical state	: Solid (Rod)
Color	: Black
Odor	: Odorless
Melting/freezing point	: Weighted average: 1112.71°C (2034.9°F)
Specific gravity	: Weighted average: 1.93 (Water = 1)
Vapor pressure	: The highest known value is 0.1 kPa (1 mm Hg) (at 20°C) (Copper).
<b>Dispersibility properties</b>	: Not dispersible in cold water, hot water.
Solubility	: Insoluble in cold water, hot water.

### Section 10. Stability and reactivity

Stability and reactivity	1	The product is stable.
Incompatibility with various substances	1	Incompatible with some strong acids.
Hazardous polymerization	:	Will not occur.

## Section 11. Toxicological information

Acute Effects	
Eyes	: Dust particules or fumes may cause eye irritation.
Skin	: No known significant effects or critical hazards.
Inhalation	: May cause respiratory tract irritation.
Ingestion Potential chronic health effects	<ul> <li>No known significant effects or critical hazards.</li> <li>Carcinogenic effects: Classified 1 (Known to be human carcinogens.) by NTP, + (Proven.) by NIOSH [Silica crystalline, quartz]. Classified A2 (Suspected for humans.) by ACGIH, 2A (Probable for human.) by IARC [Silica crystalline, quartz]. Mutagenic effects: Not available Teratogenic effects: Not available</li> </ul>
Target organs	: Contains material which causes damage to the following organs: kidneys, lungs, liver, cardiovascular system, upper respiratory tract, skin, eye, lens or cornea.
Special remarks on other toxic effects on humans	: Not available

### Section 12. Ecological information

**Products of degradation** 

: These products are carbon oxides. Some metallic oxides.

### Section 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements.

Consult your local or regional authorities.
